Suggestions for Girls Who Wish to Work for an Education—Paint Brushes and Cans of Paint for Housewife—Pantry Shelves Made to Look Brighter—Many Articles About the Home May Be Made to Look Pretty—Recipe for Salad a la Diable and Cucumber Supreme.

SUGGESTIONS FOR GIRLS WHO WISH TO WORK FOR EDUCATION.

Helping to pay one's way through college is a problem which many young women have to face either before they enter the institution or after they matriculate. Many and diverse are the means by which an ambitious maid can earn an education when she is sensible enough to realize that no task is menial if it is honest and a means to a worthy end.

When the institution is in or near a large city the ways of earning money offer a larger choice. The summer vacations, too, offer many such opportunities. More than one large hotel along the New England coast employs waitresses who, if desired, could probably converse on scientific problems with ease and understanding.

The writer knows a young girl who is caring for children in her neighborhood certain days a week, taking them for a walk or amusing them at home by the hour. Another girl tells stories to a class of children once or twice a week. Another has a children's dancing class and another plays accompaniment.

Very often go-ahead girls make themselves very useful to their classmates by mending, shoeblackening, hairdressing, shampooing and manicuring.

A girl with a talent for candy-making or baking can supply materials for "spread" or even run a little specialty shop, selling embroideries, water colored Christmas and Easter cards and hand decorated dance programs.

Sometimes there are "faculty babies" to be "coached," not in studies, but on four wheels. And then the girl with a knowledge of clear starching can launder fine laces, jabots and other dainty finery for her friends.

The girl with a talent for getting up entertainments or who can recite monologues, whistler or otherwise amuse an audience is also able to help out with her own expenses.

Hard and confining as the college course may be, it is surprising to find that with concentration there is still time for outside work if one is willing to give up play time for the purpose.

PAINT BRUSHES TO FORT.

Today the hand that wields the paint brush may be the hand of the dainty mistress of the home. So advanced has become the art of ready-mixed paints that any woman with a few cans and a good small brush can do in her home a hundred little jobs ordinarily professionals' work.

The pantry shelves may be treated to one or two coats of white or other color enamel. This saves paper and the bother of changing shelf paper, besides being more sanitary.

The radiators may look rusty; a can of bronze or aluminum metal paint will make them glisten as of yore. The kitchen stove will be almost a thing of beauty if it is treated to a wash of asphaltum or other glossy black paint prepared especially for metals. The audacious, too, the fire shovel or the fender, if it be of iron, will be ready to enjoy its summer vacation.

cation, rust-proof against summer dampness. The porch furniture that has been stored away in cellar or garret all winter may need several coats of fresh paint or stain.

If there are red or rattan pieces, a coat of stain, or just varnish, or pure oil, will bring back the luster of the wood and prevent it from splitting with changes of weather. Cane and reed furniture, tabourets, etc., should never be exposed to weather without a thorough treatment of oil to fill the crevices.

The garbage can may also be made resplendent with aluminum paint, as can the ordinarily ugly mail boxes which some of us have on the veranda.

Waste baskets, too, will stay clean longer, if treated to an oil or varnish coat. And one baby buggy I know of was made into a thing of beauty by treating it to an oil coat, and then two of white enamel, with black under body. Perhaps beauty is not skin deep, but paint deep, and the housewife will find that a little can of paint will go a long way to making things about the house bright and pretty.

RECIPES.

Salad a la Diable.

Take the meat of one large, fresh boiled lobster and dice it; drain and dry 12 raw oysters; cut in half one fresh cucumber, remove the seeds, then slice it thin, mix and put in a bowl to marinate one hour in a dressing made as follows: Four tablespoons olive oil, two of horseradish vinegar, salt, cayenne pepper; teaspoon of Worcestershire sauce; and one sliced shallot, two cloves and six drops lemon juice. Drain very carefully when ready, mix with mayonnaise and add a quarter cup of finely chopped celery. Serve in crisp lettuce leaves garnished with olives.

Cucumber Supreme.

Pare and slice thinly four cucumbers, two bunches of spring onions, a dozen radishes, one small green pepper chopped fine. Marinate in French dressing 20 minutes, drain and fill half green pepper shells. Put a little heap of mayonnaise on each, and lay the shell on a red and green beet leaf. This is decorative as well as being very good.

MRS. O'MAHONEY INJURED. Pocatello, Ida., July 28.—Mrs. D. J. O'Mahoney, wife of the horticultural inspector for southeastern Idaho, was thrown from a rig Sunday evening and dragged for some distance, causing serious injury. Mr. and Mrs. O'Mahoney and Violet McDevitt were returning from a picnic and while going down the incline of

the subway one of the shafts of the buggy fell and the horse ran away. Mrs. O'Mahoney's clothing caught when the buggy was tipped over and she was dragged some distance. The others escaped with slight injury. Mrs. O'Mahoney, who is already a cripple, sustained a dislocated hip and many bruises and cuts.

RUN DOWN BY AN AUTOMOBILE. Pocatello, Ida., July 28.—Information reached here from Soda Springs that Miss Rhea Dunlop, known in Pocatello as a junior in the academy and one of the social stars of that school, was run down by an automobile and received injuries from which she may not recover. It seems that the driver of the car was watching a runaway horse, as was Miss Dunlop, when she was struck. She was unconscious for thirty hours. The doctors hold out hope for recovery. Miss Dunlop formerly lived at Logan.

To Banish Wrinkles and Freshen Up Quickly

After a strenuous day outdoors, when wind, heat and exhaustion have combined to take away one's freshness and caused the skin to wrinkle and sag—after a tedious or fretful day indoors—one often has urgent need for some quick rejuvenator. Maybe there's a tangy party on for the evening, or some other social event. How in the world can one make herself presentable, looking as she does? It's quite easy.

Just get an ounce of powdered sassafras and a half pint of water and mix the two and bathe the face in the solution for two or three minutes. Then look into your mirror and behold the wonderful transformation! Wrinkles have vanished, loose, tired muscles have been tensed and "firmed up," marks of fatigue have flown, and you look so much brighter and younger you can hardly believe your eyes. No one need hesitate to try this, this witch hazel and sassafras being so perfectly harmless.

PLANNING BIG OUTING.

Brigham City, July 28.—The Sunday schools of Boxelder are planning a big outing to Saltair on August 5. The outing will undoubtedly be the largest out of this county this year, and extensive plans are under way for entertaining the local people at the beach on that day and for properly handling the crowds out of the city. The excursion will be run over the electric roads, the Ogden Rapid Transit and the Bamberger. Superintendent J. W. Hoopes of the Sunday schools expects one of the most successful outings ever given by the organization.

T. S. DIBBLE DEAD.

Blackfoot, Ida., July 28.—T. S. Dibble, proprietor of the Dibble garage in this city, died this afternoon following an operation for acute appendicitis. Mr. Dibble was taken ill Sunday morning and was at once operated on at the Blackfoot hospital. The appendix was found to be ruptured. Mrs. Dibble, who was visiting in the east, was notified by wire, but was unable to reach her husband's bedside before death occurred. She is expected home Thursday.

CHILD SEVERELY INJURED.

Blackfoot, Ida., July 28.—The infant son of Mr. and Mrs. C. E. Carson is suffering from a stroke of paralysis as the result of falling from a high bed and striking upon its head.

VISITING BOYS' CLUB.

Brigham City, July 28.—Walter J. Glenn, field supervisor of the Boxelder county schools, is busily engaged these days visiting the boys' agricultural clubs throughout the county. He is visiting each town in the county where there is a club and giving the boys personal instructions in finishing their work for the year. The club movement in this county is in exceptionally good shape and a great deal of interest is being displayed by the boys and girls who are engaged in the work.

NEW REVOLUTION PLOT IS DENIED

Rumor of Huerta-Diaz Intrigue to Start More Trouble in Mexico Declared False.

Washington, July 28.—Jose Castellot, personal representative here of Provisional President Carranza, today emphatically denied published reports from Toronto that General Felix Diaz was expecting General Huerta there to plan a counter revolution in Mexico. The report was very disturbing to Washington diplomats.

Mrs. Castellot conferred with Secretary Bryan and declared very satisfactory progress toward a peaceful agreement with Carranza was being made.

Official advices from Vera Cruz indicated that a complete and satisfactory agreement would be reached whereby the Zapatista forces would co-operate with the constitutionalists in establishing a new government in Mexico.

The only disturbing factor in the general situation, from the viewpoint of administration officials, was the decree by General Antonio Villareal expelling foreign priests from the state of Nuevo Leon, of which he is military governor and restricting the activity of the Catholic church.

AUSTRIAN TROOPS ON THE FRONTIER

London, July 28.—Colonel Acourt Replington, the Times' military correspondent, who has been assigned to make a survey of Austria's probable military plans, writes from the front: "Between 300,000 and 400,000 troops are concentrating by rail and river on the Serbian frontier. Seven army corps, each with two active divisions and one reserve, are engaged. One corps, 60,000 strong, apparently is a covering force against Rumania. The other six will probably be divided into three armies, each approximately 100,000 to 120,000 strong, commanded by Generals Potiorek, Von Frank and Von Auffenberg.

The plan of campaign anticipates the early evacuation of the northwestern region by the Serbians and their concentration between Kraguevatz, Kruchevatz and Nish. Against this central position the Austrians probably will attempt an enveloping attack, their armies being supported and linked by cavalry and the enemy's position being reconnoitered by aircraft.

The right army probably will advance from Sarajevo and Uvatz eastward, the center army from Semlin southeastward and the left army up the Moneva valley. The Austrians might have had Belgrade on Monday if they wished, but it was important for all the armies to advance together and only when they were ready to attack, for the crossing of the frontier may be the signal for a Russian ultimatum to Vienna, and it was to Austria's advantage to defer that disagreeable moment.

PIGEON RETURNS AFTER TWO YEARS

Kansas City, July 28.—A little battered Homing pigeon, absent from home for two years, has returned with its wings frayed and its tail feathers missing. The bird was released from the balloon Uncle Sam near Chicago, two years ago, by Roy Donaldson, aide to Captain John Hunsell of St. Louis.

Donaldson released three pigeons, all of which had small metal tags attached to their legs. Both of the others returned within a few days, but the third failed to arrive until yesterday.

VISITING ATTORNEYS.

Provo, July 28.—Attorneys J. T. Hammond and S. A. King were here today on business in the Fourth district court.

CHILD DRINKS AMMONIA.

Brigham City, July 28.—The 2-year-old son of Mr. and Mrs. G. P. Anderson of Lower Main street is in a critical condition as the result of drinking a quantity of ammonia. The little boy's mother had been using the ammonia for cleaning purposes and left a partly-filled glass of the liquid in the bath room. The little boy found the glass and drank the contents. He was immediately seized with convulsions and several physicians were summoned. At a late hour tonight it was believed that the child would recover.

LIBRARY PLANS WANTED.

Brigham City, July 28.—The Brigham City library commission is busily engaged in making preparations for the proposed Carnegie library for this city. At a meeting held yesterday afternoon, the commissioners communicated with six firms of architects, asking for competitive plans for the library building. The city will receive an appropriation of \$12,500 from the Carnegie commission. Plans must be filed with the commission before August 5.

POWERS TRY TO LOCALIZE THE WAR.

Paris, July 28.—"Russia must be kept from retreating against Austria." To this end the greatest statesmen of Europe, crowned heads and prime ministers are tonight taxing to the utmost resources of their vast experience and intelligence. While the declaration of war by Austria and the opening hostilities are the outstanding features of today's momentous events, the greatest preoccupation of the whole world is centered on "tsarkoe Seio," whence it is expected the fatal spark will shortly emanate to set fire to Europe.

France, England and Italy are in continuous direct communication with St. Petersburg and slight hope is entertained that the final catastrophe may yet be delayed.

According to late information obtained from high quarters, Russia

may be found inclined to re-assert Austria's aggression is confined to the occupation of Belgrade. The Serbian capital is reported today to be deserted.

If Emperor Franz Josef, backed by the rabid war party, shows any intention to follow up a peaceful occupation of the dead city with a march south for the purpose of crushing once for all the proud Slav nation, there is not the slightest doubt that legions of Cossacks, now massed along the frontier of Galicia will immediately cross the border and invade the dual monarchy.

Rumania would the attack also and Germany necessarily would have to take the field, partly to defend an ally, but chiefly in self-defense.

It goes without saying that her play is a crushing attack on France, where more than 1,000,000 men await the opportunity of taking a longed-for revenge for the humiliation suffered in 1870.

TO DEPORT GREEK.

Pocatello, Ida., July 28.—Immigration Inspector L. T. Plummer has in charge a Greek by the name of Demitrios Collus, who will be returned to the old country. Collus is said to be a murderer in Greece and will be deported as an undesirable person. He was first arrested here for annoying women. He will have an early hearing before United States Commissioner Turner.

Mother Stanislaus Tells of Recovery

Neglected throat trouble, and continued coughs and colds, often weaken the system. Investigate reports of recoveries brought about by Eckman's Alternative. Here is one—

"Gentlemen:—In February, 1911, four doctors examined my throat and pronounced the necessity of an operation. Having heard at Peekskill, N. Y., Motherhouse of the Sisters of St. Francis, where I was visiting, of Eckman's Alternative, I determined as a last resort to try it. After taking four or five bottles large pieces of diseased tissue came away. I continued the Alternative, to my grateful and daily relief. In ten months I was restored to perfect health. I would like them to see and hear from my own lips, if they so desire, all I would say of it."

(Abbreviated.)

(Signed) MOTHER M. STANISLAUS. Eckman's Alternative is most efficacious in bronchial catarrh and severe throat and lung affections and upbuilding the system. Contains no harmful or habit-forming drugs. Accept no substitutes. Small size, \$1.00; regular size, \$2.00. Sold by leading druggists. Write Eckman Laboratory, Philadelphia, Pa. for booklet of recoveries.—Advertisement.

DAUGHTER BORN.

Pocatello, Ida., July 28.—A daughter was born yesterday morning to Mr. and Mrs. Charles Brannon of this city. Mother and child doing nicely. A son was born Saturday to Mr. and Mrs. William Hanson of 248 South Grant.

Always Busy

There is no talk of dull, hard times. Of business poor and bad. For men who are busy have got The goods behind the ad.

PASSING IT ON.

A Sunday-school teacher, after conducting a lesson on the story of "Jacob's Ladder," concluded by saying: "Now, is there any little girl or boy who would like to ask a question about the lesson?" Little Susie looked puzzled for a moment, and then raised her hand. "A question, Susie?" asked the teacher.

"I would like to know," said Susie, "if the angels have wings, why they have to climb up the ladder?"

The teacher thought for some moments, and then, looking about the class, asked: "Is there any little boy who would like to answer Susie's question?"—Everybody's Magazine.

SHE GOT HIM THEN.

"Oh, dear, Max, what a prosaic person you are. I'm afraid we shall never understand each other very well." "Don't you worry; you understood my proposal all right, and that was in the blindest prose."—Flegende Blaetter.

MEXICAN BOYS SENT TO U. S.

Under General Villa's Plan Over 100 Youths Have Been Sent to American Schools.

El Paso, Texas, July 28.—Carlos Jauregui, an intimate friend of General Villa left here today for southern Chihuahua, where he will assemble twelve Mexican youths, sons of constitutionalist soldiers killed in battle and conduct them to a preparatory school in San Francisco. Two of the boys are children of General Toribio Ortega, a favorite of the northern divisional brigade who died recently in Chihuahua City.

This custom of sending orphaned sons of constitutionalist soldiers to school in the United States originated with General Villa and expenses are paid out of the army war chest. It is estimated that more than one hundred Mexican youths from Chihuahua have already been placed in American schools by the northern leader.

BOYS TO TAKE OUTING.

Brigham City, July 28.—Under the leadership of N. J. Valentine, the boy scouts of the Second ward will make a three days' trip to the hills in the southern part of Cache county. It is proposed to establish a camp at what is known as Twin Hills, about twenty miles east of this city, out in the wilds. The outing will be strictly a pleasure trip.

FINGER IS SMASHED.

Brigham City, July 28.—Hyrum Christensen is nursing a severely bruised finger. This morning, while working on the Knudson Brothers' farm, Christensen, in company with a force of men, was engaged in handling a large steel beam, when a slip occurred and the beam came down on his finger in such a manner that it was nearly torn off.

WILL SERVE SIX MONTHS.

Pocatello, Ida., July 28.—John Burnes, who was arrested a few days ago on the charge of wife beating, was sentenced yesterday by Judge Moyes to six months in the county jail. George Honno, who is held for transporting liquor into prohibition districts, was bound over yesterday to the district court. The bail of \$500 was not furnished.

SUIT IN FORECLOSURE.

Provo, July 28.—Ingrie Williamson has begun a foreclosure suit in the Fourth district court against Stephen S. Bunnell and Agnes S. Bunnell to collect \$5000, with interest at the rate of 10 per cent from January 24, 1914 on a promissory note, secured by mortgage on Utah county real estate.
